SUMMARY

Computer science student and independent software developer focused on building user-centered web and mobile applications. Experience developing end-to-end products with an emphasis on usability, product design, and UX informed by a background in psychology. Interested in software engineering roles that combine technical problem-solving with thoughtful product development.

SKILLS

- **Programming:** Python, C++, JavaScript, HTML, CSS, React
- **Tools:** Figma, GitHub, Visual Studio Code, Supabase, Stripe, Resend
- **UX and Product:** UX UI Design, Wireframing, Prototyping, User Flows, Information Architecture
- **Languages:** English, Spanish

EXPERIENCE

HAVEN | Full Stack Community Management Platform - Independent Project | 2024 – Present

- Designed and developed a full-stack platform for managing neighborhoods, clubs, and residential communities.
- Built member and admin workflows for facility bookings, events, announcements, and payments.
- Implemented authentication, data storage, and role-based access using Supabase.
- Integrated Stripe for payments and subscription-style features.
  Tech: React, Supabase, Stripe, JavaScript, Figma

GiveLocal | Mobile First Donation Discovery Platform - Independent Project | 2024 – Present

- Designed and developed a mobile-first web application featuring an interactive map-based interface that helps users quickly locate nearby donation centers and community resources.
- Led product ideation, UX UI design, and implementation from concept to working prototype.
  Tech: React, JavaScript, HTML, CSS, Figma

Operations and Technology Intern - Banco Venezolano de Crédito | Caracas, Venezuela | 2022

- Rotated across operational, technology, and client-facing teams within a financial institution.
- Gained exposure to internal systems, security processes, and real-world operational workflows.

Digital Product Design Consultant - Freelance | Project-Based

- Designed presentations and digital materials for healthcare and medical professionals.
- Collaborated with clients to turn complex information into clear visual narratives.

EDUCATION

- **University of Florida** - Bachelor of Science in Computer Science - Expected May 2027
- **Flatiron School** - Certificate in Digital Product Design (UX UI), 2023
- **Jacksonville University** - Undergraduate Coursework in Psychology
